Presenter: _____ _____ Group # ___ Poster # ___

Title: _____

Points	Rubric	Comments
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Title: _____

Points	**Rubric**	**Comments**
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	Rubric	Comments
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings

_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
- Concisely describes content of poster, header is tidy
- Cites research, relates to questions

_____/10 **Research Questions and Methods**
- Follow from introduction, stated clearly
- Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
- Appropriate analysis, assumptions met, sensible decisions leading to final model
- Conclusions follow from evidence
- Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
- Connects results to introduction, interprets results, next steps
- References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
- 5 min presentation (−1 for each minute over, does not include time for questions)
- Enthusiastic, makes eye contact with audience
- Responses to questions demonstrate knowledge of subject matter
- Responses to questions demonstrate knowledge of statistical approach
- Presenter seems engaged in their research and interested in sharing findings

_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
- Concisely describes content of poster, header is tidy
- Cites research, relates to questions

_____/10 **Research Questions and Methods**
- Follow from introduction, stated clearly
- Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
- Appropriate analysis, assumptions met, sensible decisions leading to final model
- Conclusions follow from evidence
- Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
- Connects results to introduction, interprets results, next steps
- References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
- 5 min presentation (−1 for each minute over, does not include time for questions)
- Enthusiastic, makes eye contact with audience
- Responses to questions demonstrate knowledge of subject matter
- Responses to questions demonstrate knowledge of statistical approach
- Presenter seems engaged in their research and interested in sharing findings

_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
- Concisely describes content of poster, header is tidy
- Cites research, relates to questions

_____/10 **Research Questions and Methods**
- Follow from introduction, stated clearly
- Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
- Appropriate analysis, assumptions met, sensible decisions leading to final model
- Conclusions follow from evidence
- Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
- Connects results to introduction, interprets results, next steps
- References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
- 5 min presentation (−1 for each minute over, does not include time for questions)
- Enthusiastic, makes eye contact with audience
- Responses to questions demonstrate knowledge of subject matter
- Responses to questions demonstrate knowledge of statistical approach
- Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
- Concisely describes content of poster, header is tidy
- Cites research, relates to questions

_____/10 **Research Questions and Methods**
- Follow from introduction, stated clearly
- Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
- Appropriate analysis, assumptions met, sensible decisions leading to final model
- Conclusions follow from evidence
- Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
- Connects results to introduction, interprets results, next steps
- References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
- 5 min presentation (−1 for each minute over, does not include time for questions)
- Enthusiastic, makes eye contact with audience
- Responses to questions demonstrate knowledge of subject matter
- Responses to questions demonstrate knowledge of statistical approach
- Presenter seems engaged in their research and interested in sharing findings

Title: _____

Points	**Rubric**	**Comments**
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**

Title: _____

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
Concisely describes content of poster, header is tidy
Cites research, relates to questions

_____/10 **Research Questions and Methods**
Follow from introduction, stated clearly
Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
Appropriate analysis, assumptions met, sensible decisions leading to final model
Conclusions follow from evidence
Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
Connects results to introduction, interprets results, next steps
References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
5 min presentation (−1 for each minute over, does not include time for questions)
Enthusiastic, makes eye contact with audience
Responses to questions demonstrate knowledge of subject matter
Responses to questions demonstrate knowledge of statistical approach
Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**

_____/15 **Title and Introduction**
- Concisely describes content of poster, header is tidy
- Cites research, relates to questions

_____/10 **Research Questions and Methods**
- Follow from introduction, stated clearly
- Data source, variables and coding, enough detail about methods to understand the results

_____/30 **Results and Graphs**
- Appropriate analysis, assumptions met, sensible decisions leading to final model
- Conclusions follow from evidence
- Figures illustrate comparisons being made in analysis, well labeled

_____/20 **Discussion and References**
- Connects results to introduction, interprets results, next steps
- References: Minimum of 3, relevant to intro/discussion

_____/25 **Presentation**
- 5 min presentation (−1 for each minute over, does not include time for questions)
- Enthusiastic, makes eye contact with audience
- Responses to questions demonstrate knowledge of subject matter
- Responses to questions demonstrate knowledge of statistical approach
- Presenter seems engaged in their research and interested in sharing findings

Points	**Rubric**	**Comments**
_____/15	**Title and Introduction** Concisely describes content of poster, header is tidy Cites research, relates to questions	
_____/10	**Research Questions and Methods** Follow from introduction, stated clearly Data source, variables and coding, enough detail about methods to understand the results	
_____/30	**Results and Graphs** Appropriate analysis, assumptions met, sensible decisions leading to final model Conclusions follow from evidence Figures illustrate comparisons being made in analysis, well labeled	
_____/20	**Discussion and References** Connects results to introduction, interprets results, next steps References: Minimum of 3, relevant to intro/discussion	
_____/25	**Presentation** 5 min presentation (−1 for each minute over, does not include time for questions) Enthusiastic, makes eye contact with audience Responses to questions demonstrate knowledge of subject matter Responses to questions demonstrate knowledge of statistical approach Presenter seems engaged in their research and interested in sharing findings	
_____/100	**Total**
